

CCS2300 Data Structures & Algorithms

Tutorial 1

CIT-24-02-0189

Activity 01 – Make flowcharts and pseudo codes for below scenarios.

1.

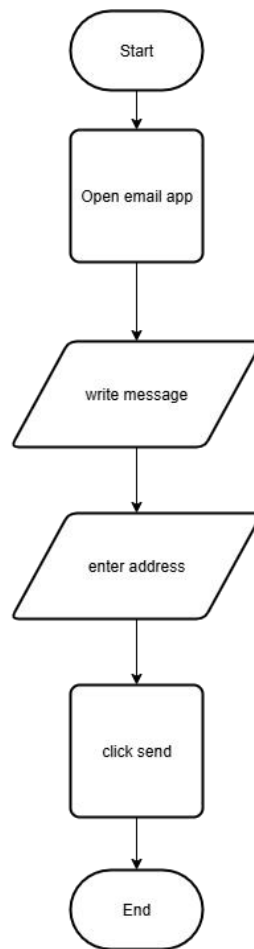

BEGIN

PROCESS boil water
PROCESS add tea bag
PROCESS pour water
PROCESS stir
PROCESS serve

END.

2.

BEGIN

PROCESS open gmail app

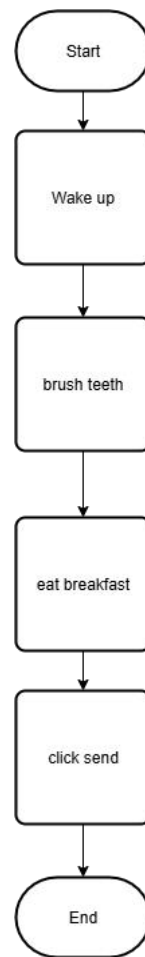

INPUT message

INPUT address

PROCESS click send

END.

3.

BEGIN

PROCESS wake up

PROCESS brush teeth

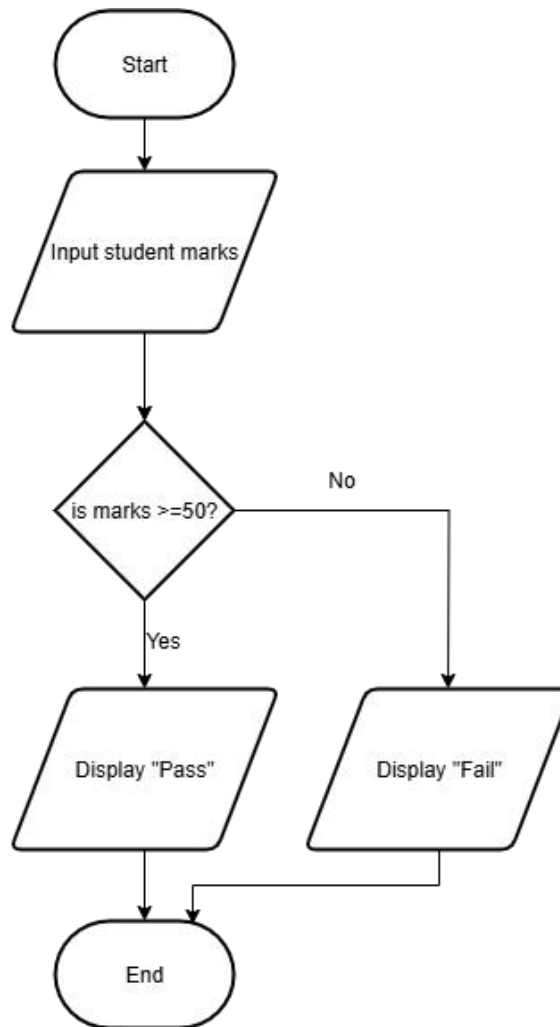

PROCESS eat breakfast

PROCESS click send

END.

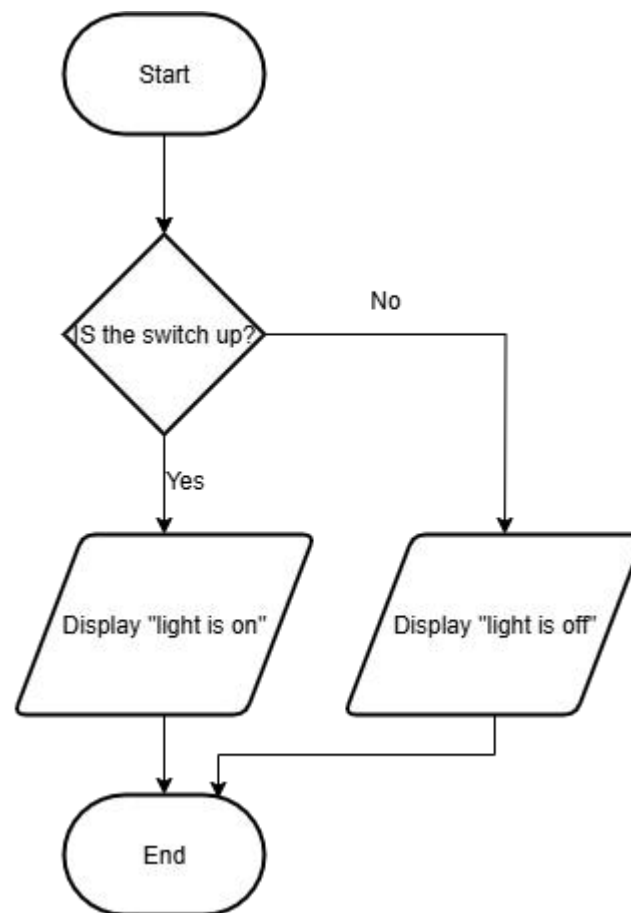

Activity 02 – Make flowcharts and pseudo codes for below scenarios.

1.

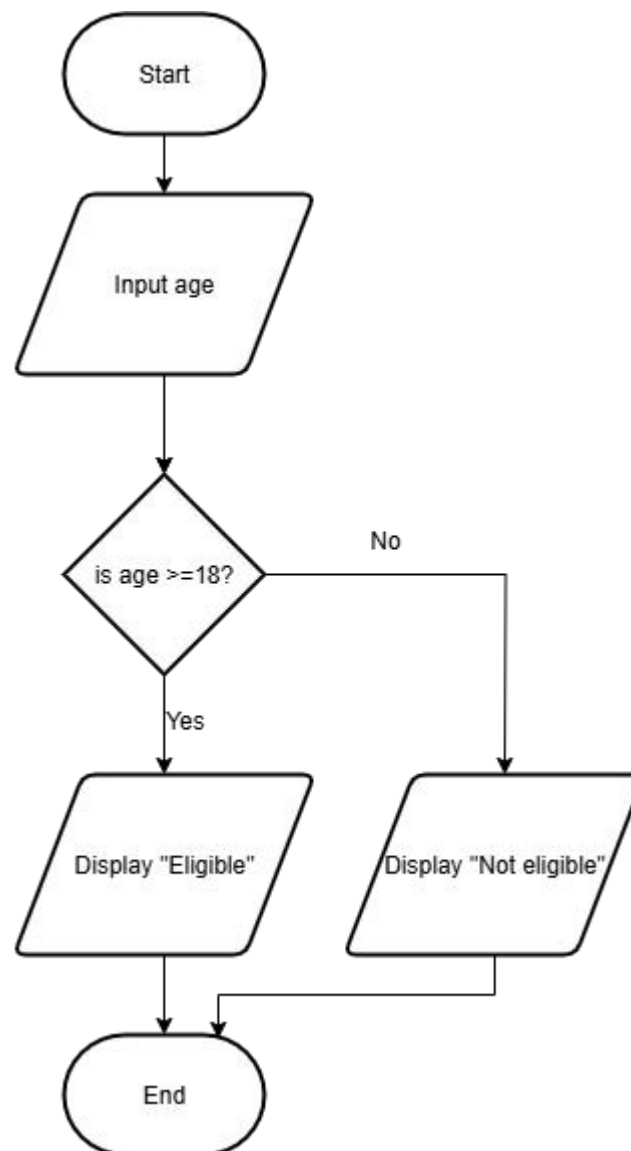

```
BEGIN
  INPUT student marks
  IF marks >= 50 THEN
    DISPLAY "Pass"
  ELSE
    DISPLAY "Fail"
  END
END
```

2.

```
BEGIN
    IF switch is up THEN
        DISPLAY "light is on"
    ELSE
        DISPLAY "light is off"
    END
END
```

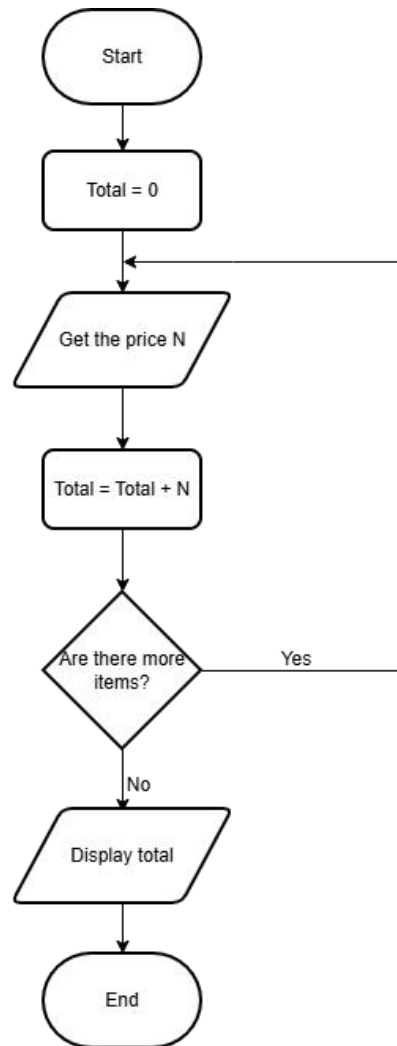

3.

```
BEGIN
  INPUT age
  IF age >= 18 THEN
    DISPLAY "Eligible"
  ELSE
    DISPLAY "Not eligible"
  END
END
```

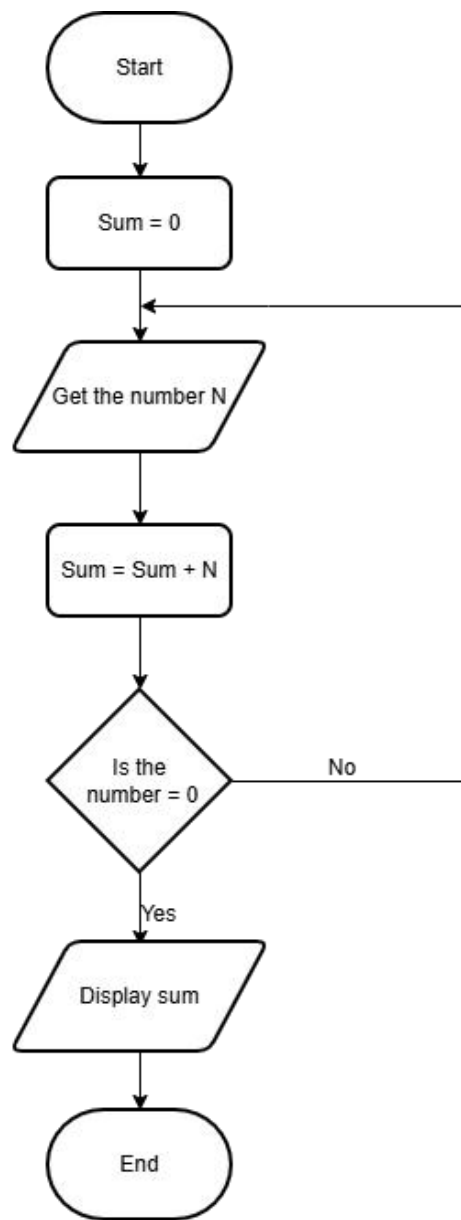

Activity 03 – Make flowcharts and pseudo codes for below scenarios.

1.

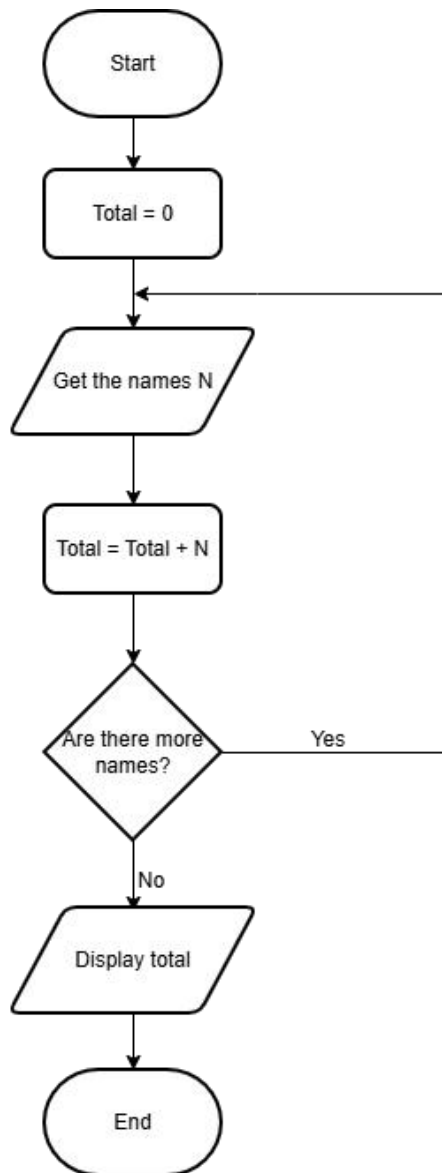

```
BEGIN
    Total = 0
    REPEAT
        READ price as N
        CALCULATE Total = total + N
    UNTIL items are over
    DISPLAY total
END
```

2.

```
BEGIN
    Sum=0
    REPEAT
        READ number as N
        CALCULATE Sum= sum + N
    UNTIL the number is 0
    DISPLAY sum
END
```

3.

```
BEGIN
  Total = 0
  REPEAT
    READ name as N
    CALCULATE Total = total + N
  UNTIL names are over
  DISPLAY total
END
```
